9th February 2024

11th – 15th March 2024

Dear Parents and Carers,

As part of British Science Week, we would like to invite the children to enter the annual poster competition! The theme for the week is '**Time**' and so they can make a science poster based around this theme and be in with the chance of winning an array of prizes and certificates.

They could focus on any scientific processes relating to 'time'. Think about:

- Encouraging children to think about time – what it means to them and how it relates to the science they've learnt about.
- Think about how time relates to subjects such as: changing states of materials, dinosaurs, carrying out observations over time, plants, seasons, lifecycles.
- Think about time in the world, and beyond. What about time in space? How did they tell the time in the past?
- Are there any scientists they know of whose work relates to time?

Once the children have done their research, it's time to get creative!

The poster must be: A4 or A3 size. Pupils can use pop up pictures, pull out tabs or use materials such as paint, drawing pencils, crayons and paper.

Once the poster is complete, please send it in to your child's teacher. Posters will be judged at the end of science week, and we look forward to seeing your entries.

Yours sincerely

Miss Flack
Science Co-ordinator
